

The Perfect E-Storm: Emerging Technologies, Enormous Demand, and Erased Budgets

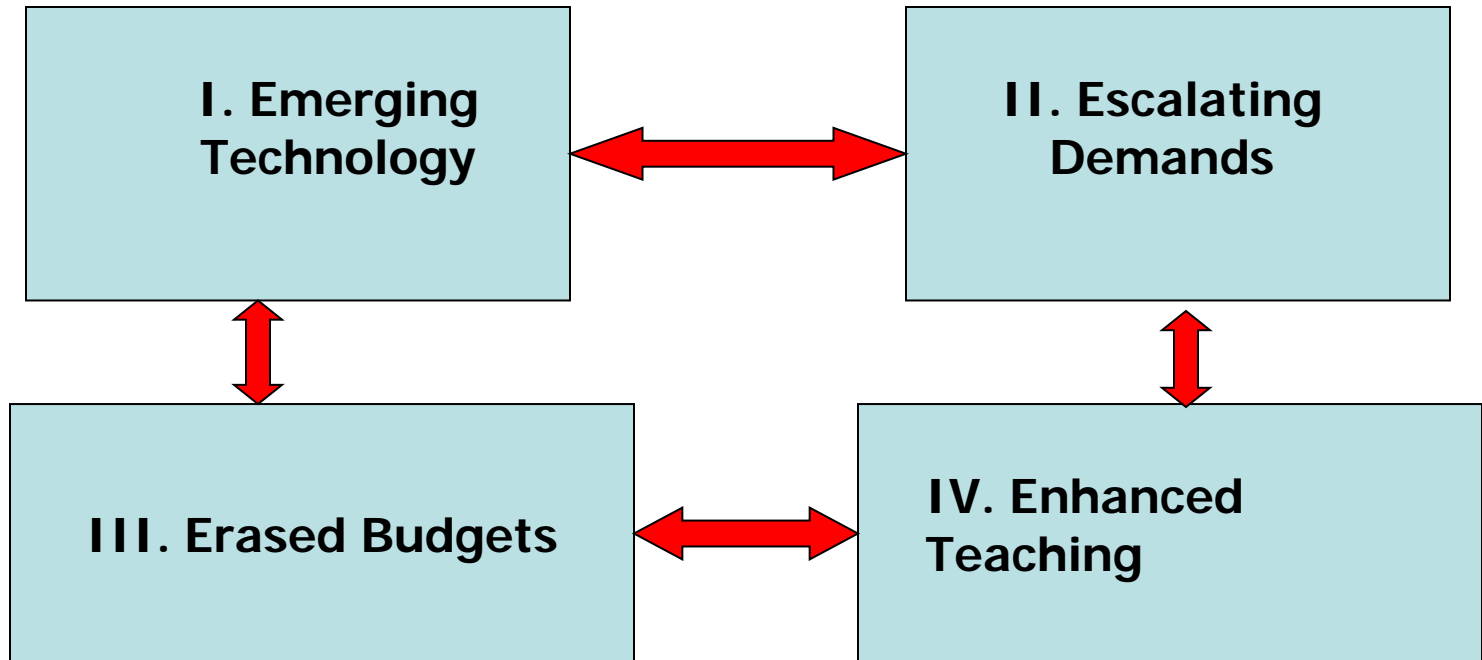

Dr. Curtis J. Bonk

Professor, Indiana University

<http://mypage.iu.edu/~cjbbonk/>

cjbbonk@indiana.edu

Four Storms Are Approaching!

Storm 1. Emerging ("Hot") Learning Technologies (Volcanos)

Will we become increasingly mobile learners?

Of course, there will always be smaller and cheaper devices...

1. New interfaces are coming!

Jeff Han on TED Talks

2. Social Networking Gaming (e.g., Farmville and gaming addictions)

3. Internet Enabled Devices (e.g., Oregon Scientific Smartglobe)

4. Shared Online Video (e.g., Link TV: Global Link of World Educators (GLOWE))

Peace Wanted Alive: Kenya at the Crossroads

This documentary examines the grassroots peacebuilding response to Kenya's 2008 election violence, which worked to prevent genocide and civil war.

9. OpenCourseWare (e.g., MIT OCW Highlights for High School)

The screenshot shows the MIT OpenCourseWare website's 'Highlights for High School' page. The header features the MIT logo and 'MITOPENCOURSEWARE MASSACHUSETTS INSTITUTE OF TECHNOLOGY'. A navigation bar includes 'Home', 'MITOpenCourseWare', 'Help', 'Contact Us', and a search bar. The left sidebar lists categories: 'Highlights for High School Home' (with sub-links for Teachers and Students), 'Introductory MIT Courses', 'Resources' (with links to AP Biology, AP Calculus, and AP Physics), 'Knowledge in Action' (with links to Build Stuff, Save the World, and Write Better), 'Hands on Learning' (with links to Labs, Competitions, and Demonstrations on Video), and 'High School Courses Developed by MIT Students'. The main content area has a yellow background with the title 'MIT OpenCourseWare: Highlights for High School' and a photo of students. Below the title, it states: 'Highlights for High School features MIT OpenCourseWare materials that are most useful for high school students and teachers.' At the bottom of this section are links for 'For Teachers', 'For Students', and 'Tell us what you think.' To the right, a testimonial from Michael, a high school student, praises the website for providing access to MIT's OpenCourseWare site, which he compares to finding a large sum of money. Below the testimonial is a 'NEWSLETTER' sign-up section and a video player with the caption 'Highlights for High School is unlocking knowledge and inspiring young minds.' and a 'Watch the video' link.

"I am a high school student in rural Hagerstown, Maryland with little opportunity to learn of subjects outside of Mathematics and English. **Your website has contributed hundreds of hours to my education in Physics as well as Biology.** Discovering and utilizing MIT's OpenCourseWare site was like finding \$40,000 sitting on a park bench."

-Michael,
High School Student

10. Open Educational Resources (e.g., Curriki, free K-12 curriculum resources)

Connexions: Dec 2009, 1.6m unique users, 4 million page views, 72 million hits, More than 1m users, 200 countries

National Repository of Online Courses (NROC)

The screenshot shows the Curriki website homepage. At the top, there is a navigation bar with the Curriki logo, a member login section with fields for member login, password, and a 'Go' button, and a 'Become a Member' link. To the right is a search bar with a 'Go' button and links for 'Advanced Search' and 'Browse Subjects'. Below the navigation bar, the main content area is divided into several sections. On the left, there is a 'DONATE TO CURRIKI' button and a 'HOME' menu with links to 'FIND RESOURCES', 'PUBLISH CONTENT', 'CONNECT WITH TEACHERS', 'PARTNERS & SPONSORS', 'HELP', 'ABOUT CURRIKI', and 'SOCIAL NETWORKING'. Below the menu is a 'WATCH CURRIKI GROW' section showing statistics: Resources: 35859, Members: 120114, Groups: 505, and a 'Join Now!' button. Further down is a 'FEATURED MEMBER' section for Lindsey White, a teacher from Kealahou, Hawaii, who is currently attending Boise State University online. The main content area also features a 'Curriki's mission' statement: 'Curriki's mission is to provide free, high-quality curricula and education resources to teachers, students, and parents around the world. Learn how you can help!'. Below this is a 'May Highlights & Features' section. The 'EXPLORE RESOURCES' section allows users to browse resources in all subjects, with icons for Language Arts, Mathematics, Science, and Social Studies. At the bottom, there are three columns: 'Find' (Collect lesson plans, teaching activities, student worksheets and more. Featured Resource: Equivalent Fraction Munch with Pizza Pie), 'Publish' (Share your favorite curriculum resources to improve education globally. Recently Reviewed: Butterflies and Moths Science Kit), and 'Connect' (Collaborate with teachers in your school, or educators around the world. Featured Group: Inventing the Future).

Free online materials could save schools billions

Updated 52d ago | Comments 15 | Recommend 36 | E-mail | Save | Print | Reprints & Permissions | [RSS](#)

By [Greg Toppo](#), USA TODAY

Since March, Dixon Deutsch and his students have been quietly experimenting with a little website that could one day rock the foundation of how schools do business.

A K-2 teacher at Achievement First Bushwick Elementary Charter School in Brooklyn, N.Y., Deutsch, 28, has been using [Free-Reading.net](#), a reading instruction program that allows him to download, copy and share lessons with colleagues.

He can visit the website and comment on what works and what doesn't. He can modify lessons to suit his students' needs and post the modifications online: Think of a cross between a first-grade reading workbook and Wikipedia, the popular online encyclopedia written and edited by

OLPC, Marvell Join Forces, Announce sub-\$100 Tablet by December 2010

May 27th, 2010 by Mike Prospero4 retweetShare

Is the dream of a \$100 laptop finally coming to fruition? One Laptop Per Child and Marvell today announced a partnership to develop the next generation of laptops for children in developing nations. The nonprofit OLPC said that by using Marvell's Moby platform, the two would be able to produce a reference design by the end of 2010, two years ahead of OLPC's original goal.

The new device, known as the XO 3.0, could cost as little as \$75, said OLPC founder Nicholas Negroponte [in an interview](#). In exchange for helping OLPC create a system for the education market, Marvell will have a blank slate, so to speak, that it will be able to easily customize and sell to other companies looking to get into the tablet market, said Weili Dai, the founder, VP and GM of Consumer and Computing Business Unit of Marvell, in an interview with LAPTOP.

"We're trying to create a tool where we can offer a complete pizza to someone," said Ed McNierney, the CTO of OLPC. "They'll say, 'Can you take off the mushrooms and pepperoni?' and we can get a product out to them much more quickly."

The 10-inch tablet will use an Armada 610 processor, 1080p encoding, Flash support, and will be able to act as a Wi-Fi hotspot for up to 8 users. Initially, the dual-mode display will be glass, but OLPC is looking to use plastic in the future. OLPC hopes that by switching to the tablet format and the new processor, it can reduce power consumption by half, to less than two watts, which will enable children to recharge the device without needing an outlet.

McNierney said that several factors would help bring the cost down to below \$100. Moving from a traditional notebook format to a tablet will reduce the number of parts needed to actually make the notebook. "One of the most expensive mechanical pieces in our current laptop is the hinge for the display," he said. "We currently have 118 different SKU units for different keyboards and different configurations around the world. Going from the device we have right now to a tablet means fewer parts, smaller parts, a smaller device, and a lower overall system cost."

Secondly, said McNierney, if consumer-focused companies start licensing the design, then OLPC and Marvell can achieve

Google Earth gazes into deep space

Posted 128d ago | Comments 8 | Recommend 26 E-mail | Save | Print | RSS

Enlarge NASA via Reuters

NASA's Hubble Space Telescope's image of a 50-light-year-wide view of the central region of the Carina Nebula. Google Earth's 'Sky' mode uses Hubble images to give users a view of the universe.

Candace Lombardi for News.com

Truly out-of-this-world views have been added to Google Earth's interactive map.

Sky, as the new mode is called, offers views of the universe, including high-resolution photographs from the Hubble Space Telescope and background information on discoveries and constellations.

GOOGLE SKY: Look up and see the stars

The elaborate interactive map of the universe was created by a team of Google engineers who combined images from CalTech's Palomar Observatory, the Space Telescope Science Institute, the Digital Sky Survey Consortium, the Sloan Digital Sky Survey, the United Kingdom Astronomy Technology Center and the Anglo-Australian Observatory.

Sky covers a vast amount of territory — 100 millions stars

2010 Annual Letter from Bill Gates: Online Learning

Students working in a computer lab (New York, New York, 2009).

The foundation has made a few grants to drive online learning, but we are just at the start of this work. So far technology has hardly changed formal education at all. But a lot of people, including me, think this is the next place where the Internet will surprise people in how it can improve things—especially in combination with face-to-face learning. With the escalating costs of education, an advance here would be very timely.

Most of us have had a teacher whose lectures made a subject seem fascinating even though we didn't expect that it would be. If you are going to take the time to listen to a lecture, you should hear it from the very best. Now that finding and watching videos is a standard part of the Internet experience, we can put great teachers' lectures online.

On to Storm 4: Enhanced Teaching (a swirling storm)

Addressing Diverse Learners with R2D2

The R2D2 Model

The R2D2 Method

1. Read (Auditory and Verbal Learners)
2. Reflect (Reflective Learners)
3. Display (Visual Learners)
4. Do (Tactile, Kinesthetic, Exploratory Learners)

Why Address Learning Styles?

- Promotes reflection on teaching
- Move from just one mode of delivery
- View from different viewpoints
- Offer variety in the class
- Might lower drop-out rates
- Fosters experimentation

1. Auditory or Verbal Learners

- **Auditory and verbal learners prefer words, spoken or written explanations.**

How to Use English Punctuation Correctly

With the dawn of the Internet, the birth of Internet slang, and the growing age of SMS, many individuals are forgetting the fundamental aspects of English punctuation. Would you like to write a great paper for one of your classes? Maybe you need to submit a polished, impeccable proposal to your boss? If so, it will help to know proper usage of punctuation. Consider this article a crash course in English punctuation, and read on.

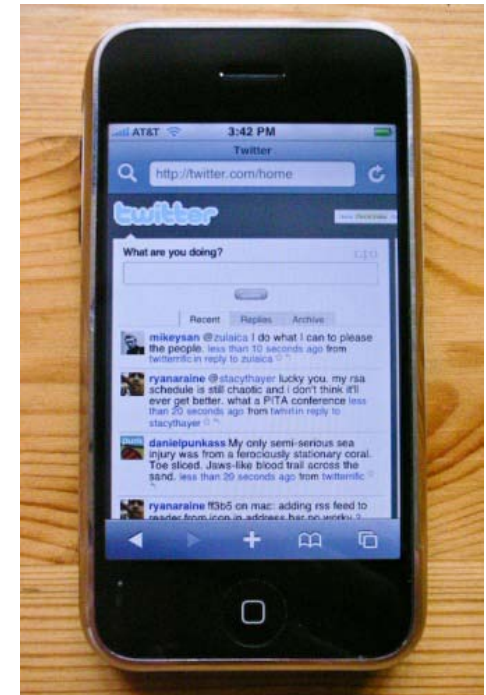

The PLATYPUS has a duck's bill and a beaver's tail. This strange looking mammal can hold its breathe under water for 10 minutes while resting.

Steps [\[edit\]](#)

- End your sentences with a period (**full stop**), question mark, or exclamation point (**exclamation mark** or **shout mark**).
 - Use the **period (full stop)** to denote a full stop at the end of a statement. The period (.) is one of the most commonly used punctuation marks.
 - The accessibility of the computer has increased tremendously over the past several years.*
 - The **question mark (?)**, used at the end of a sentence, suggests an interrogatory remark or inquiry.
 - What has humanity done about the growing concern of global warming?*
 - The **exclamation point (exclamation mark, shout mark)(!)** suggests excitement or emphasis in a sentence.
 - I can't believe how difficult the exam was!*
- Use the semicolon and colon properly.
 - The **semicolon (;)** has a few uses.

University of Pennsylvania Turns to Industry for Medical Research

Posted by Scott Hensley

Things have changed a bit since Eakins painted a Penn doc in 1889. Image via [Wikimedia Commons](#).

Even the big winners at the NIH trough can't take the government's research support for granted. Take the University of Pennsylvania, which pulled in \$451 million in biomedical funding from NIH last year, [second only to Johns Hopkins](#).

Nevertheless, Penn's med school started an office five years ago to work with industry on research. And whatever you might think about the propriety of the approach, the dollars are rolling in. About \$50 million in research support now comes from industry compared with about \$20 million four or five years ago, Terry Fadem, head of Penn Medicine's [Office of Corporate Alliances](#), tells the Health Blog.

Fadem says the change is largely the result of a more collaborative approach. "Many academic centers weren't set

Anti-Aging Genes

LEONARD GUARENTE
Professor of Biology, MIT

By studying how yeast ages, MIT's Leonard Guarente uncovered the gene that also controls how other organisms, and perhaps humans, grow old.

Kaprosuchus

From Wikipedia, the free encyclopedia

Kaprosuchus is an extinct [genus](#) of [mahajangasuchid](#) [crocodyliform](#). It is known from a single nearly complete skull collected from the [Upper Cretaceous Echkar Formation](#) of [Niger](#). The name means "boar crocodile" from the [Greek](#) *kapros* ("boar") and *souchos* ("crocodile") in reference to its unusually large caniniform teeth which resemble those of a [boar](#).^[1] It has been nicknamed "BoarCroc" by [Paul Sereno](#) and [Hans Larsson](#), who first described the genus in a monograph published in *ZooKeys* in 2009 along with other Saharan crocodyliformes such as *Anatosuchus* and *Laganosuchus*.^[2] The *type species* is *K. saharicus*.
